**DAWGBYTE GRAPHICS - A REMAR CO.**

## About Us - Entrepreneurs to Multipreneurs®

***You Got People? If not now you do. Let Us Be Your People!***

ReMar, the parent company, began as a family operation in 1989 as a Record Shop. The love of music and a marketing degree perpetuated the idea and ReMar Records was launched. Vinyl and cassette tapes were the standard music formats

followed shortly by the introduction of Compact Disc's. T-shirts and Oil Based Fragrance were the companion offering to our customers along with other music related accessories. As entrepreneurs we began adding other products and offering for our customers to help increase our chances of success. We then added custom air-brushing, embroidery and clothing alterations.

With the introduction of mass market retailers, who were able to sell music cheaper than we could buy at wholesale, ReMar was forced to be creative to survive so we started a music delivery service. The Record Shop was eventually closed but our entrepreneurial spirit could not be denied. DawgByte Graphics was

introduced as a companion company with a focus on T-Shirts and Wedding invitations and stationary. It has since evolved into a full line graphics company with "Anything and Everything Graphic" as its motto.

DawgByte Graphics focus today is to be an inclusive design, print and deliver solution for individuals and small business's.

Our philosophy has always been, if one thing is not working something else is. That mindset coupled with our varied and seeming unorthodox product offering caused us to coin the phrase to describe ourselves as ... "Multipreneurs".

You Got People? If not now you do. Let Us Be Your People!

### We Also Do:

**Business Cards**

**Flyers**

**Brochures**

**Funeral Programs**

**Signs - Banners**

**Price Sheets**

**Menus**

**Web Page Design**

**Photo Designs**

**Throws Pillows**

**T-Shirts Sweats Polo's**

**Cut Vinyl Graphics**

**... And More**

Smell sexy,  
mysterious and  
playful at the  
same time.  
Wear our oils  
and heads will  
turn!

Why is  
fragrance a  
good gift  
for a man  
to give a  
woman?

Pulse point (a  
place on the  
body where  
blood vessels  
are close to the  
skin). Pulse  
points are  
places where  
the body  
generates  
more heat.

\* Our oils are types (not  
originals)

## Fragrance Talk - Q&A

**Q:** Where is the sexiest  
place to apply fragrance?

**A:** The sexiest, new place to  
apply fragrance is below  
your belly button. It's a  
"hot zone" in more ways  
than one because the skin's  
warmth there allows the  
fragrance to radiate  
through out the day...and,  
it's a very sensual place to  
apply fragrance.

**Q:** How do I find the  
fragrance that's sexiest for  
me?

**A:** A woman's sexiest  
fragrance is one that makes  
her feel confident so she  
can project her sexiest self.  
Fruity floral fragrances  
seem to make one feel sexy  
because it balances the  
sparkling energy of light  
florals with the sensual  
nature of forbidden fruit  
with a hint of warmth. That  
combination is flirtatious  
and seductive, which works  
with a broad range of  
fragrance preferences.  
When looking for a new  
fragrance, find a scent that  
you like in the bottle then  
test it on the skin. Then wait  
a few minutes and smell the  
fragrance on your skin  
again. That's when the

deeper, warmer notes have  
adhered to your skin and  
you can determine truest  
rendition of the fragrance.  
It's so important to try  
fragrance on the skin  
because scents vary when  
in contact with different  
body chemistries.

**Q:** What scents do men like  
the most on women?

**A:** Men respond to women's  
fragrances with vanilla in  
the background. They  
like scents that are not too  
overpowering and have a  
sense of femininity and  
sensuality to them. There is  
something about the  
"comfort factor" of  
recognizable scents like  
vanilla and apple that  
resonates with men.

**Q:** Any rules for applying  
and reapplying my  
fragrance?

**A:** We all have our rituals  
for applying fragrance,  
whether it's few direct  
applications or walking  
through "the cloud". No  
matter where you apply,  
always target at least one  
warmer zone like below the  
belly button, back of the  
neck, or cleavage. As our  
oils are concentrated a little

dab will do you.

**Q:** When is it time to find a  
new fragrance?

**A:** We always have our  
long-term favorites. In  
addition to your "signature  
scent," I suggest adding a  
new scent to your  
repertoire, in the fall and/  
or the spring. This will give  
you a fresh feeling of  
renewal and will likely  
preventing you from  
OD'ing on your signature  
scent.

**Q:** Why is fragrance a good  
gift for a man to give a  
woman.

**A:** Fragrance is a very  
intimate gift. It's the closest  
thing to your skin, which  
make it a good companion  
to lingerie. Or, it's the  
perfect alternative when  
he's not sure of sizing. It's a  
gesture that says that he  
wants to be close to you,  
which is a very seductive  
message!

## Oil Based Fragrance 101

The major reason that oil  
fragrances smell  
differently on different  
individuals is body  
chemistry. In our case  
we will define body  
chemistry as the effects  
of individual body  
differences on perfume  
oil fragrance. Perfume  
oils are carefully  
blended to insure the

accuracy of the  
ingredients and the  
constancy of the  
manufacturing process.  
Fragrances are blended  
to have a certain effect  
and blending is an art to  
the perfumer. When an  
oil fragrance from a  
reputable dealer varies  
from one person to the  
next the primary reason

is body chemistry. The  
best way to test any oil  
based fragrance is to  
apply a small amount to  
a pulse point. Pulse  
points are places where  
the body generates  
more heat, and the  
fragrance will give off  
more scent.

## T-Shirts

### Put it on a T-Shirt

Have an idea?

Have a favorite picture or design?

Picture of the kid's to share with Grandma?

Need to express yourself?

Memorial photo T-Shirts?

Whatever the reason...

Put it on a T-SHIRT!

Let us take your idea, design or photo and create a T-Shirt exclusively for you. Nothing like a one of a kind custom designed T-Shirt .

We can do one T or as many as you require. Family reunion coming? We provide quantity discounts. Email us with some basic details and we will provide you with a price quote.

We do Professionally applied heat transfers, usually for photos and some

designs. We do cut vinyl, which is arguably better and lasts longer then screen printing, and we also do screen printing.

When people hear transfer they immediately think of craft store transfers applied with a home iron. Not so ! Professional application uses pigmented inks that don't wash out, a heat press which is hotter then a household iron and is capable of pressing force that can't be achieve with a household iron. All contribute to a lasting design.
